

You want the best? Then this is it.

Conrad has won a host of awards, and rightly so; luxury, service and comfort are of the very highest order and, whilst it can be very private and exclusive, there is still plenty of vibe and action for those who want it. Beach and over-water accommodation and whichever you choose you will want for nothing but it has to be said that the Deluxe Beach Villa is one of the best room categories in the Maldives, with amazing outdoor bathroom, private pool and breath-taking accommodation. As for the over-water rooms, they are topped (if that's possible) by the Sunset Water Villas, with glass-floored living rooms and a circular bed that rotates so you can watch the sunset, that have to be seen to be believed. This resort sets the benchmark for sophisticated barefoot luxury.
